

Sell more journeys. Run everything in one place.

A complete web platform for travel agencies and tour operators - from leads and quotations to bookings, payments, operations and growth.

ONE CONNECTED PLATFORM

Sales & customer journey

Public travel website, packages, destinations, search, itineraries, galleries, reviews, enquiries, CRM leads and shareable quotations.

Bookings & traveler portal

Direct and partner bookings, status tracking, seat pricing, Razorpay verification, wishlists and personal traveler dashboards.

Operations & inventory

Trips, itineraries, events, destinations, suppliers, visa applications and organized operational records in one workspace.

Finance & reporting

Earnings, expenses, invoices, payroll, commissions, visual dashboards and downloadable CSV/PDF business reports.

Partner resale network

Branded partner pages, custom resale links, attributed bookings, configurable platform fees and partner earnings ledgers.

Business management

Marketing campaigns, reputation records, HRM, attendance, leave, performance and role-based employee access.

ONBOARDING INCLUDED

Brand setup | Production deployment | Initial admin configuration | Payment gateway setup support | Team orientation | 30-day implementation support

Need more? Multiple brands, custom integrations, mobile apps, additional users, data migration and source-code licensing are available by quotation.

Prices are indicative and exclude GST. Domain, payment-gateway fees, SMS, WhatsApp, email and other third-party services are additional. Subscription billing begins at production launch. Custom development is quoted separately. Client business data remains the client's data; product IP and source code remain with Travels OS unless separately licensed.
